

Table of the Agencies' Programs Eligible to Transfer to the Institution's General Research Funds (GRF)

NSERC and SSHRC only

The following table contains all of NSERC and SSHRC eligible programs and their Program ID code for which grant residual funds could be eligible to be transferred to the institution GRF account. Unspent funds are considered to be a residual balance* of expired, non-renewed or non-extended grants which may possibly qualify to be transferred to the institution's GRF account, pending a written authorization from the Agency (NSERC or SSHRC).

*A residual balance is an amount corresponding to 50% or less of the allocated grant.

Note:

For more information on what constitute a residual balance and conditions required for transferring unspent funds to your institution's GRF account please refer to: [Residual Balance](#), and for more guidelines on the institution's GRF please refer to: [Guidelines for the General Research Fund \(NSERC and SSHRC only\)](#).
